Shares of Swedish company Argo Defence Group are now tradable at Boerse Stuttgart

Two European exchanges of Boerse Stuttgart Group combine services to provide a unique dual listing offering for Swedish growth companies. The shares of the Swedish defence industry company Argo Defence Group, primary listed on the Scandinavian exchange Nordic Growth Market (NGM), can now be traded by German investors through a secondary listing at Boerse Stuttgart's "Nordic Growth Market" segment. The shares are traded daily from 9.00 to 17.30 hours CET. Liquidity provision in trading at Boerse Stuttgart is performed by EUWAX AG, which is also the liquidity provider in shares trading at NGM.

The dual listing offering at Boerse Stuttgart's trading segment "Nordic Growth Market" makes Swedish growth companies more visible on the euro zone capital market, allowing them to expand their investor base.

The Swedish equity capital market for small and medium-sized growth companies (SMEs) is unique as it accounts for two thirds of European trading in SME shares. Over the past twelve months, NGM has listed six new growth companies from the defence sector.
