

## **Christian Lindner strengthens international Advisory Council of Boerse Stuttgart Group**

Boerse Stuttgart Group has expanded its newly founded Advisory Council to include Christian Lindner. The former German Federal Minister of Finance is one of the most prominent figures in European financial and economic policy, with extensive experience at the intersection of capital markets and economic transformation.

The Advisory Council of Boerse Stuttgart Group brings together leading European figures from the financial industry, business, public sector, and technology. In addition to Christian Lindner, its members include: Massimo Giordano (Senior Partner and former Managing Partner Europe, McKinsey & Company), Enrico Letta (President Jacques Delors Institute; former Italian Prime Minister), Sylvie Matherat (Supervisory Board Member; former Member of the Management Board Deutsche Bank), Fleur Pellerin (CEO Korelya Capital; former French Minister for Digital Affairs), Prof. Dr. Axel Weber (President Center for Financial Studies; former President Deutsche Bundesbank; former Chairman of the Board of Directors UBS), and Ron Zuckerman (global tech investor and founder).

As a source of ideas and a sparring partner, the Advisory Council provides the top management of the exchange group with essential input to shape the future of the European capital market, to expand the exchange group's pioneering role in digital technologies, and to further accelerate its dynamic growth.

"Europe needs strong and innovative capital market players that combine technological progress with regulatory excellence," says Dr. Matthias Voelkel, CEO of Boerse Stuttgart Group. "Christian Lindner brings precisely this perspective: politically experienced, internationally well-connected, and forward-looking in his understanding of the European and international capital market. We are delighted to welcome him to the Advisory Council."

Christian Lindner explains: "Boerse Stuttgart Group is actively shaping the European capital market of the future. Like no other European exchange group, it stands for the

connection between traditional capital markets business and the digital world. Its mindset is European, and it stakes a claim to technological leadership. At a time when the future of the European Capital Markets Union is being shaped, this is a strong position. I look forward to being part of this journey."
